

# **COMPREHENSIVE ANALYSIS OF THE POSITIONS OF MEMBER STATES AT THE START OF THE STRATEGY EUROPE 2020**

**Assoc. Prof. Dr Stanka Zhekova**

## **Abstract**

In the study there is offered an approach to the comprehensive analysis of the positions of EU member states on the leading goals and generalized priorities of the strategy Europe 2020. It is approbated with the help of data on the indicators of common European growth in the opening year of the strategy - 2010. On the basis of a specially developed structural scheme of priorities, the goals and indicators of the strategy and of the used generalizing measurements of its individual aggregation levels, there is carried out a comprehensive analysis of the positions of countries at the start of Europe 2020. There are formulated generalizing conclusions on how much individual countries contribute to the formation on the basis of smart, sustainable and inclusive growth in the EU, which of them are leading and which ones are lagging far behind on the path to the realization of European strategic priorities.
